Ministry of Transportation and Transit

Commercial Vehicle Safety & Enforcement

National Safety Code

BULLETIN

RE: Safety Rating and Certificate Status for B.C. Carriers

Beginning in July 2024, Commercial Vehicle Safety and Enforcement (CVSE) will be publishing a list of carriers who currently hold a National Safety Code (NSC) safety certificate issued in B.C.

This list, found in the attached appendix, will be published monthly as an update to this bulletin, and contains the following information for each carrier:

- Carrier's legal name
- City (based on the carrier's mailing address)
- Certificate status (Active, No Active Vehicles, or Suspended)
    - Suspensions may change at any time during the month, please contact NSC to confirm the current status of any carrier listed as suspended
- Safety rating (updated on the first day of each month)
    - Details on possible safety ratings can be found in Appendix B of the Carrier Safety Guide (available to download from www.cvse.ca)
- Fleet size (the number of active vehicles as of the first day of the month)

This measure is introduced to:

- Promote transparency of B.C. data
- Provide information for the public and industry to consider when making decisions

Should you have are any questions or concerns, please contact the NSC Program Office at (250) 952-0576 or by email NSC@gov.bc.ca.

Thank you,

Karen Coverett
Manager, National Safety Code
Commercial Vehicle Safety and Enforcement

Appendix: Carrier Safety Rating and Certificate Status List

Carrier	City	Certificate Status	Fleet Size	Safety Rating
#1 LIBERTY HOMES LTD.	SURREY BC	Inactive - No Active Vehicles		Satisfactory - Unaudited
